- Power supply: 100-240 VAC, 50/60 Hz

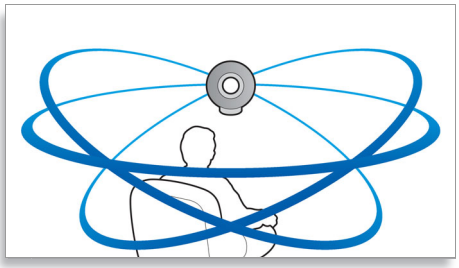
SoundRing FullSound Made for iPod iPhone iPad AirPlay

Highlights

AirPlay wireless technology

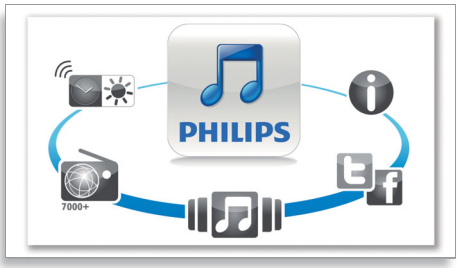
AirPlay lets you stream your entire iTunes music collection to your Fidelio docking stations. It plays wirelessly from the iTunes program on your computer, iPhone, iPad or iPod Touch to any AirPlay-enabled speaker in your home. All you have to do is ensure your speakers are connected to your Wi-Fi network. AirPlay also lets you play simultaneously on every speaker in every room. Make your favourite tunes follow you into whichever room you go.

SoundRing



The SoundRing brings audio with a difference to the home. Engineered to completely fill your room with superb sound, it comprises a central bass sound pipe and four high definition drivers—two front-firing and two side-firing. The front-firing drivers provide crystal-clear and detailed sound, delivering full audio impact. The side-firing speakers and the central bass sound pipe work in tandem to radiate outstandingly natural and immersive sound in all directions. The result is an unbeatable room-filling listening experience that you can enjoy from anywhere in your room.

Free Fidelio app on App Store



The free Philips Fidelio app brings lots of cool and exclusive features to your Fidelio. You can listen to your favourite radio shows, discover new music with thousands of Internet radio stations worldwide, browse through your music collection and share what you're listening to with friends via Facebook and Twitter. At the touch of a button, find information about songs or broadcast through radio stations instantly. In Clock mode, you can set up multiple customised music alarms and find updated weather reports. Download it from the App Store and find out more.
